📍 Hyderabad, India

ABOUT ME

Motivated Computer Science undergraduate with strong foundation in Python, Java, DSA, OOP, DBMS, OS and SQL. Experienced in full-stack and machine learning projects using Flask, React, PHP and MySQL. Solved 225+ LeetCode problems and passionate about building scalable software solutions.

EDUCATION

Vignan Institute of Technology and Science | 2023-2027

Computer Science and Engineering

CGPA : 8.9

TECHNICAL SKILLS

Languages: Python, C, Java

Core: DSA, OOP, DBMS, OS, Computer Networks, Software Engineering

Web: HTML, CSS, JavaScript, React, Flask, PHP

Database: MySQL, SQL

Tools: Git, GitHub, VS Code, XAMPP

PROJECTS

Student Performance Prediction System

- Developed a full-stack ML web application to predict student's academic performance.
- Implemented and compared Linear Regression, Random Forest, and Decision Tree models to improve prediction accuracy.
- Built an interactive dashboard with performance visualization and risk classification (Safe, Warning, At Risk).
- Integrated automated PDF report generation for prediction results.

Employee Attendance & Worksheet Management System

- Developed a web-based employee attendance system using PHP and MySQL.
 - Implemented secure login with session management and role-based access control.
 - Built features for attendance tracking, worksheet submission, and report generation.
 - Added time- and weekend-based submission restrictions.
 - Optimized database design and SQL queries for efficient data management.
-

SKILLS

- Problem Solving
- Team work
- Adaptability
- Communication
- Analytical Thinking
